

Reliable performance for gold, silver, brass, and bronze casting.

Ultra-Vest® investment is accepted by jewelry casters as being the most process forgiving product available for casting – saving casters time and money. Ultra-Vest investment provides easy quench and cleanup, reducing your risk of losing valuable metal. Ultra-Vest investment produces smoother surfaces than other investments, resulting in less finishing.

Features

- High-strength and crack-resistant, ensuring durability and reliability during the casting process.
- Easy quench and cleanup properties streamline workflows, reducing the risk of losing valuable metal, saving both time and money.
- Produces superior surface finish compared to other investments, minimizing the need for extensive finishing work.
- Made in the USA with high-quality standards.

Typical Material Properties*

Water:Powder Ratio
39:100
Working Time
10–10.5 minutes
