

Widely recognized investment powder for the jewelry industry, delivering exceptional casting quality and superior surface finish.

Now manufactured by Ransom & Randolph, Omni-Cast™ is produced using only the highest-grade raw materials. Its high cristobalite content supports casting precious alloys up to 2450°F (1350°C), including Palladium White Gold.

Omni-Cast investment is formerly a Whip Mix Product.

Features

- Designed for casting precious alloys, including Palladium White Gold.
- Engineered to withstand even the most demanding burnout cycles.
- Made in the USA with high-quality standards.
