

High-temperature investment for platinum and stainless steel.

Astro-Vest is a high-temperature investment formulated for platinum, stainless steel, and other alloys cast above 2200°F (1200°C). It delivers consistent, fin-free castings with excellent detail reproduction, giving casters the reliability they need for demanding metals.

Features

- Designed for casting platinum, stainless steel, and high-temperature alloys.
- Produces smooth, fin-free surfaces.
- Formulated for excellent detail reproduction.

Typical Material Properties*

Water:Powder Ratio
27:100

Working Time
5–6 minutes
