PRESS RELEASE

For Immediate Release

Ransom & Randolph Enters Dental 3D Printing Market with New Resin Product Line

Maumee, OH – November 21, 2024– Ransom & Randolph (R&R), a trusted leader in traditional dental lab solutions, has expanded into the 3D printing market with the launch of its new resin product line, including R&R 3D Model Elite™ and R&R 3D Model Standard™. With over a century of technical expertise in dental lab solutions, R&R leverages its deep knowledge and trusted reputation to bring the same precision and reliability in digital workflows. The introduction of our 3D Model resins is the next step in supporting the evolving needs of dental labs through innovation and expert guidance.

R&R 3D Model Elite™ resin offers the ultimate precision for crown & bridge, partials, and prosthetics. This advanced formula delivers smooth surfaces, exceptional detail, and stability for complex restorations. The fast cure profile streamlines workflows, making it the ideal choice for labs that demand high-quality results.

R&R 3D Model Standard™ resin provides a versatile, economical solution for a wide range of dental models, including orthodontics. With its low viscosity and compatibility with large build plates, it produces precise, detailed results at a cost-effective price.

Both resins are available in beige and grey and are compatible with thermoforming processes, offering high-quality results for a range of applications.

With over a century of expertise in dental lab solutions, Ransom & Randolph leverages its trusted reputation to bring the same precision and reliability in digital workflows. The introduction of our 3D Model resins is the next step in supporting the evolving needs of dental labs with innovation.

"Entering the 3D printing market is a natural evolution for R&R," said Dan Nixon, President of Ransom & Randolph. "We're bringing the same expertise from our traditional products to digital solutions that address the unique challenges faced by today's dental labs. As we step into the future of digital technology, our goal remains the same: to deliver products that meet the evolving needs of our industry, whether for traditional or digital workflows."
