

Investment engineered for casting white-gold.

Ultra-Vest® MAXX™ investment delivers the thermal stability needed for high metal-melt burnout, and casting temperatures. It helps reduce orange-peel defects caused by metal/mold reactions and minimizes flashing and spalling due to investment breakdown during burnout of resin pattern materials.

Note: Not for use with platinum or palladium

Typical Material Properties*

Water:Powder Ratio
39:100
Working Time
11–11.5 minutes

**These results are based on the testing methods, frequency and procedures of Ransom & Randolph or its approved suppliers. The levels referenced herein are only for general guidance and do not constitute a firm specification.*

Availability

USA

44 lb. (20 kg) box.....469103
100 lb. (45.4 kg) pail.....68217

International

50 lb. (22.7 kg) box.....69103
50 lb. (22.7) sewn bag.....69112
100 lb. (45.4 kg) pail.....69110

Also available with BANDUST™ technology for less respirable silica.
