Multiflex™ duplicating material

AQUA BLUE

An economical, user-friendly, all-purpose, fully reversible duplicating hydrocolloid.

Multiflex™ duplicating material is a versatile, economical hydrocolloid for producing dental stone models, refractory models, and molds used in fluid resin denture techniques. It is compatible with stones, ethyl silicate investments, and phosphate investments.

Features

- Economical choice for everyday duplicating
- Compatible with a wide range of stones and investments
- Low melting temperature and short hold time
- Fully reversible for repeated use
- Easy to melt, pour, and clean

Typical Material Properties*

Color
Aqua blue

Melt Temperature
192°F (89°C)

Idle Temperature
131°F (55°C)

Hold Time
≤10 minutes
