

An economical investment for silver, brass, and bronze casting. Minimizes excess metal and watermarking defects to deliver consistent results and improve profitability.

Advantage™ investment is formulated for low-temperature alloys and provides an economical option for casting silver, brass, and bronze. Its balanced formulation helps control excess metal use and minimizes watermarking defects, supporting dependable casting performance.

Features

- Suitable for silver, brass, and bronze low-temperature alloys.
- Helps reduce excess metal and watermarking defects.
- Supports consistent, reliable casting results and improved profitability.

Typical Material Properties*

Water:Powder Ratio
39:100

Working Time
10–10.5 minutes

**These results are based on the testing methods, frequency and procedures of Ransom & Randolph or its approved suppliers. The levels referenced herein are only for general guidance and do not constitute a firm specification.*

Availability

USA

44 lb. (20 kg) box.....468270
100 lb. (45.4 kg) pail.....68272

INTERNATIONAL

50 lb (22.7 kg) box.....68270
100 lb. (45.4 kg).....68272

Also available with BANDUST™ technology for less respirable silica.
