

FLEX-TACK™ SOLUTION

Flex-Tack solution is an adhesive liquid formulated to increase adhesion between plastic patterns and models. The 2 ounce bottle features a brush installed into the cap for easy application.

Application Instructions

1. Paint the refractory model and place down the partial pattern with light to moderate pressure.

Safety

Highly flammable liquid and vapor. Refer to SDS for specific details.

Storage & Handling

Store locked up in a cool, well-ventilated place. Keep container tightly closed.

As the conditions or methods of use are beyond our control, we do not assume any responsibility and expressly disclaim any liability for any use of this product. Information contained herein is believed to be true and accurate but all statements or suggestions are made without warranty, expressed or implied, regarding accuracy of the information, the hazards connected with the use of the material or the results to be obtained from the use thereof. Compliance with all applicable federal, state, and local regulations remains the responsibility of the user. All potential liability related to the sale and use of this product is limited to the cost of the particular goods sold in their respective transactions.
